Glossary

Acronyms and Abbreviations

Chapter 1: Boat Crew Duties and Responsibilities

Section A: The Boat Crew.....	1-3
Section B: Boat Crew Duties.....	1-5
Trainee	1-6
Crew Member.....	1-7
Boat Engineer.....	1-9
Coxswain.....	1-10
Surfman.....	1-12
Section C: Watchstanding Responsibilities	1-13
Lookout Watch.....	1-14
Night Lookout Watch	1-21
Helm Watch.....	1-22
Towing Watch	1-23
Anchor Watch.....	1-25
Appendix 1-A: The Boat Crew	1-27
Appendix 1-B: The Boat Crew	1-31
Appendix 1-C: The Boat Crew	1-33

Chapter 2: Patrols

Section A: Safety Patrols	2-3
Benefits of Safety Patrols	2-4
Auxiliary Safety Patrol Boat Duties.....	2-5
Section B: Regatta Patrols and Marine Parades.....	2-9
Patrolling Regattas.....	2-10
Patrol Boat Assignments	2-13
Patrolling the Various Regattas	2-16
Marine Parades	2-21
Section C: Aids to Navigation Patrols.....	2-23
Section D: Chart Updating Patrols.....	2-25
Section E: Disaster Patrols	2-27
Section F: Port Security and Maritime Pollution	2-29

Chapter 3: Crew Efficiency Factors

Section A: Physical Fitness Standards	3-3
Section B: Crew Fatigue.....	3-9
Section C: Motion Sickness	3-13
Section D: Lethal Fumes.....	3-15
Section E: Noise.....	3-17
Section F: Drugs and Alcohol	3-19
Section G: Cold Related Factors.....	3-21
Effects of Cold Weather.....	3-22
Hypothermia	3-23
Frostbite	3-25
Layering Clothing	3-26
Section H: Sun and Heat Related Factors.....	3-29
Sun Burns	3-30
Dehydration	3-31
Heat Rash (Prickly Heat)	3-33
Heat Cramps.....	3-34
Heat Exhaustion.....	3-35
Heat Stroke	3-36
Susceptibility to Heat Problems.....	3-37

Chapter 4: Team Coordination and Risk Management

Section A: Team Coordination.....	4-3
Team Relationship	4-4
Team Coordination and Risk Management	4-5
Section B: Team Coordination Standards.....	4-7
Leadership Standard	4-8
Mission Analysis Standard	4-9
Adaptability and Flexibility Standard	4-11
Situation Awareness Standard.....	4-12
Decision Making Standard	4-13
Communication Standard	4-14
Assertiveness Standard.....	4-15
Section C: Risk Management Process	4-17
The Four Rules of Risk Management	4-18
Risk Management Process, Step 1.....	4-20
Risk Management Process, Step 2.....	4-21

Risk Management Process, Step 3.....	4-23
Risk Management Process, Steps 4, 5, 6, & 7.....	4-25
Section D: Informal Crew Briefing and Debriefing	4-27
Informal Crew Briefing	4-28
Informal Crew Debriefing	4-29

Chapter 5: First Aid

Section A: Crew Member's Roles.....	5-3
Crew Responsibilities	5-4
Handling and Transporting of Injured.....	5-6
Section B: Treatment for Shock.....	5-7
Shock Syndromes	5-8
Anaphylactic Shock	5-12
Section C: Resuscitation Methods and Emergencies.....	5-15
Resuscitation Procedures	5-16
Heart Attack	5-18
Stroke	5-19
Scuba Incidents.....	5-20
Section D: Treatment for Wounds, Fractures, and Burns	5-23
Bandages	5-24
Bleeding	5-26
Fracture (Broken Bones).....	5-35
Burns	5-44
Section E: Environmental Injuries.....	5-47
Emergencies Caused by Heat	5-48
Emergencies Caused by Cold	5-51
Hypothermia	5-53
Near-drowning.....	5-58
Fish Bites and Stings.....	5-59
Section F: Miscellaneous Emergencies.....	5-61
Carbon Monoxide Poisoning	5-62
Poisoning by Mouth.....	5-63
Eye Injuries.....	5-64

Chapter 6: Survival Equipment and Pyrotechnics

Section A: Personal Flotation Device (PFD)	6-3
Type I PFD.....	6-4
Type II PFD.....	6-6
Type III PFD	6-7

Type IV PFD	6-9
Type V PFD	6-10
PFD Storage and Care	6-11
PFD Survival Equipment.....	6-12
Standard Navy Preserver.....	6-15
Section B: Hypothermia Protective Clothing.....	6-17
Requirements	6-19
Antiexposure Coverall.....	6-21
Dry Suit	6-23
Wet Suit	6-25
Section C: Headgear.....	6-27
Section D: Boat Crew Signal Kit	6-29
Contents	6-30
Emergency Signaling Mirror	6-31
Signal Whistle.....	6-33
Smoke and Illumination Signal, MK-124 MOD 0.....	6-34
Illumination Signal Kit, MK-79 MOD 0	6-37
Distress Signal Light	6-39
Section E: Personnel Survival Kit	6-41
Section F: Pyrotechnics	6-43
Section G: Rescue and Survival Raft.....	6-47
Section H: Emergency Procedures in the Event of Capsizing	6-53

Chapter 7: Marlinespike Seamanship

Section A: Types and Characteristics of Line	7-3
Line Characteristics.....	7-4
Natural Fiber Line.....	7-8
Synthetic Line.....	7-10
Section B: Inspection, Handling, Maintenance and Stowage of Line.....	7-13
Inspection	7-14
Uncoiling and Unreeling.....	7-17
Maintenance	7-20
Stowing Lines.....	7-23
Section C: Breaking Strength and Safe Working Load	7-27
Breaking Strength and Safe Working Load of a Line.....	7-28
Breaking Strength and Safe Working Load for Shackles and Hooks	7-30
Considerations and Limitations	7-31

Section D: Knots and Splices.....	7-33
Estimating the Length of a Line.....	7-34
Breaking Strength.....	7-35
Basic Knots	7-36
Splices	7-54
Whipping	7-59
Mousing Hooks and Shackles	7-62
Section E: Line Handling and Deck Fittings	7-65
Deck Fittings	7-66
Line Handling	7-67
Appendix A: Estimating the Breaking Strength and Safe Working Load of Lines	7-75
Appendix B: Estimating the Safe Working Load of Shackles.....	7-79
Appendix C: Estimating the Safe Working Load of Hooks.....	7-80
Appendix D: Instructions for Eye Splice in Double Braid Line	7-81

Chapter 8: Boat Characteristics

Section A: Boat Nomenclature and Terminology	8-3
Section B: Boat Construction	8-7
Hull Types	8-8
Keel	8-14
Principle Boat Parts	8-15
Hatches and Doors.....	8-22
Boat Measurements	8-24
Displacement	8-25
Section C: Watertight Integrity	8-27
Closing and Opening Watertight Doors and Hatches	8-28
Entering a Closed Compartment After Damage.....	8-29
Section D: General Boat Equipment	8-31
Section E: Troubleshooting Basic Mechanical Problems	8-35
Troubleshooting Diesel Engines	8-36
Troubleshooting Gasoline Inboard Engine (Except Outboards)	8-41
Casualties Common to Both Diesel and Gasoline Engines	8-44
Troubleshooting the Outboard	8-50
Steering Casualty.....	8-52
Basic Engine Maintenance for Auxiliary Facilities.....	8-53

Chapter 9: Stability

Section A: Safety and Risk Management Control.....	9-3
Section B: Understanding Stability.....	9-7
Center of Gravity	9-8
Buoyancy	9-9
Equilibrium	9-10
Types of Stability	9-12
Moment and Forces	9-13
Section C: Losing Stability	9-17
Stability After Damage.....	9-18
Free Surface Effect	9-19
Free Communication with the Sea.....	9-21
Effects of Icing	9-22
Effects of Downflooding.....	9-23
Effects of Water on Deck.....	9-24

Chapter 10: Boat Handling

Section A: Forces	10-3
Environmental Forces	10-4
Forces Acting on a Vessel.....	10-9
Shaft, Propeller, and Rudder	10-12
Outboard Motors and Stern Drives	10-17
Waterjets	10-21
Section B: Basic Maneuvering	10-23
Learning the Controls	10-24
Moving Forward in a Straight Line.....	10-26
Turning the Boat with the Helm	10-33
Stopping the Boat	10-38
Backing the Vessel.....	10-40
Using Asymmetric or Opposed Propulsion	10-43
Changing Vessel Heading Using Asymmetric or Opposed Propulsion.....	10-44
Performing Single-Screw Compound Maneuvering	10-48
Section C: Maneuvering Near Other Objects.....	10-51
Keeping Station	10-52
Maneuvering	10-56
Section D: Maneuvering to or from a Dock	10-57
General Considerations	10-58
Basic Maneuvers.....	10-59

Rules of Thumb	10-63
Section E: Maneuvering Alongside Another Vessel.....	10-67
Determining Approach	10-68
Going Alongside	10-70
Section F: Maneuvering in Rough Weather.....	10-73
Using Caution.....	10-74
Negotiating Head Seas.....	10-77
Running Before a Sea	10-81
Traversing Beam Seas.....	10-84
Transiting Harbor Entrances, Inlets, or River Entrances	10-85
Coping with High Winds	10-88
Heaving-To.....	10-91
Section G: Maneuvering in Rivers.....	10-93
Operating in a Narrow Channel	10-94
Turning in a Bend	10-97
Section H: Anchoring	10-101
General Information	10-102
Ground Tackle.....	10-105
Fittings	10-106
Anchoring Techniques	10-108
Anchor Stowage	10-116

Chapter 11: Communications

Section A: Radio Signal Characteristics	11-3
Modulation and Frequency	11-4
Radio Systems	11-5
Radio Frequencies.....	11-7
Section B: Prowords and Common Abbreviations.....	11-11
Section C: Verbal Communications.....	11-13
The Phonetic Alphabet.....	11-14
Numbers and Decimal Points.....	11-16
Section D: Radio Operating Procedures.....	11-17
Section E: Communicating Between Coast Guard Facilities	11-19
Coast Guard Voice Call Signals and Ops Normal Reports	11-20
Bridge-to-Bridge Communications Required.....	11-22
Section F: Emergency Voice Communications and Distress Signals	11-23
Standard Voice Radio Urgency Calls.....	11-24
Emergency Position Indicating Radiobeacon (EPIRB) and	
Emergency Locator Transmitter (ELT)	11-27
Global Marine Distress and Safety System (GMDSS).....	11-29

Distress Signals.....	11-30
Section G: Radio Checks	11-33

Chapter 12: Weather and Oceanography

Section A: Weather	12-3
Wind	12-4
Thunderstorms and Lightning.....	12-7
Fog	12-11
Ice	12-13
Forecasting	12-14
Section B: Oceanography	12-19
Waves	12-20
Current	12-27

Chapter 13: Aids to Navigation

Section A: U.S. Aids to Navigation System	13-3
Lateral and Cardinal Significance	13-4
General Characteristics of Short Range ATON.....	13-7
Summary of Lateral Significance of Buoys and Beacons.....	13-14
Buoys	13-17
Beacons	13-18
Section B: U.S. ATON System Variation.....	13-25
Intracoastal Waterways and Western Rivers.....	13-26
Uniform State Waterway Marking System.....	13-28
Section C: Short Range Electronic Aids.....	13-31
Section D: Radionavigation Systems.....	13-33
Loran-C	13-34
Global Positioning System (GPS).....	13-35
Differential Global Positioning System (DGPS).....	13-36
Radionavigation System Summary	13-37
Section E: The <i>Light List</i>	13-39
Appendix 13-A U.S. ATON System	13-43
Appendix 13-B Visual Buoyage Guide.....	13-45
Appendix 13-C Fictitious Nautical Chart.....	13-47
Appendix 13-D Western River System and USWMS	13-49

Chapter 14: Navigation

Section A: The Earth and its Coordinates	14-3
Lines and Circles.....	14-4

Parallels	14-6
Meridians	14-9
Chart Projections	14-12
Section B: Nautical Charts.....	14-15
The Compass Rose	14-16
Soundings	14-18
Basic Chart Information	14-20
Scale of the Nautical Chart.....	14-24
Chart Symbols and Abbreviations.....	14-26
Buoy Symbols.....	14-28
Other Chart Symbols.....	14-29
Accuracy of Charts	14-35
Section C: Magnetic Compass	14-37
Components of a Magnetic Compass.....	14-38
Direction	14-41
Compass Error.....	14-43
Variation	14-44
Deviation	14-45
Compass Adjustment	14-55
Applying Compass Error.....	14-56
Section D: Piloting	14-61
Basic Piloting Equipment	14-62
Distance, Speed, and Time	14-72
Fuel Consumption.....	14-76
Terms Used In Piloting	14-77
Laying the Course.....	14-80
Dead Reckoning (DR).....	14-82
Basic Elements of Piloting.....	14-85
Plotting Bearings	14-94
Line of Position (LOP).....	14-97
Set and Drift (Current Sailing)	14-109
Radar	14-115
Loran	14-126
Global Positioning System (GPS).....	14-130
Differential Global Positioning System (DGPS).....	14-131
Section E: River Sailing.....	14-133
Major Piloting Differences	14-134
Conditions and Effects	14-136
Locks and Dams	14-137
Safety Considerations Around Navigation Dams	14-142

Flood Warnings	14-143
Common River Sailing Terms	14-144

Chapter 15: Search and Rescue

Section A: Organization and Responsibility.....	15-3
Coast Guard Responsibility	15-4
Search and Rescue Coordination.....	15-6
Section B: SAR Emergency Phases.....	15-9
Section C: Legal Aspects and U.S. Coast Guard Policy.....	15-11
SAR Agreements	15-12
Distress Beacon Incidents	15-13
Flare Incidents	15-14
Hoaxes and False Alarms	15-15
Maritime SAR Assistance Policy	15-16
General Salvage Policy (Other Than Towing).....	15-19
General Issues.....	15-21
Section D: SAR Incident Information	15-23
Initial SAR Information.....	15-24
Additional SAR Information	15-28
Section E: Search Planning	15-31
Datum	15-22
Search Area Description	15-34
Search Patterns	15-39
Initial Response.....	15-49
Search Area Coverage	15-51
Section F: Search Preparations	15-53
Section G: Conducting a Search	15-55

Chapter 16: Person in the Water Recovery

Section A: Recovery Methods	16-3
General Man Overboard Procedures.....	16-4
The Approach.....	16-8
Sailboat Approaches	16-13
Approaching in Low Visibility.....	16-16
Approaching Under Surf Conditions	16-25
Recovery	16-26
Section B: Water Survival Skills	16-33
Cold Water Survivability	16-34
Survival Techniques	16-36

Chapter 17: Towing

Section A: Towing Safety	17-3
Assessment and Awareness	17-4
Risk Management Planning	17-5
Section B: Forces in Towing.....	17-7
Static Forces	17-8
Dynamic Forces	17-10
Combination of Forces and Shock-load	17-14
Section C: Towing Equipment	17-17
Towlines and Accessories	17-18
Messengers	17-25
Chafing Gear.....	17-27
Deck Fittings and Other Fittings.....	17-28
Drogues	17-30
Other Equipment.....	17-35
Section D: Standard Towing Procedures.....	17-37
Pre-Towing Procedures	17-38
Towing Astern.....	17-43
Connecting Tow Rig to Fittings	17-48
Connecting Tow Rig to a Trailer Eye	17-51
Transition to Stern Tow	17-52
Underway with Stern Tow	17-54
Compensating for Current.....	17-59
Shortening the Tow	17-67
Towing Alongside.....	17-70
Sinking Tows.....	17-75
Appendix A: Towing Precautions	17-77

Chapter 18: Firefighting, Rescue and Assistance

Section A: Safety and Damage Control.....	18-3
Coast Guard Firefighting Activities Policy	18-4
Safety Assessment and Management Guidelines	18-5
Section B: Boat Fire Prevention and Susceptible Areas.....	18-7
Preventive Actions	18-8
Susceptible Areas.....	18-9
Section C: Fire Theory, Classifications, and Fuel Sources.....	18-13
Fire Theory	18-14
Classifications of Fire and Fuel Sources.....	18-16

Section D: Extinguishing Agents.....	18-17
Section E: Applying Extinguishing Agents	18-19
Applying Water.....	18-20
Applying Aqueous Film-Forming Foam (AFFF)	18-23
Applying Chemical Agents	18-24
Applying Halon.....	18-27
Applying FE-241	18-28
Section F: Firefighting Equipment.....	18-29
Fire Hose	18-30
Spanner Wrench.....	18-32
Wye-Gate	18-33
Tri-Gate	18-34
Vari-Nozzle	18-36
Fire Monitor	18-37
In-Line Proportioner	18-39
Mechanical Foam Nozzle	18-41
Drop Pump and AFFF.....	18-43
Fire Axe	18-44
Carbon Dioxide (CO ₂) Extinguishers.....	18-45
Dry Chemical Extinguishers (PKP).....	18-47
Section G: Firefighting Procedures	18-49
Coast Guard's Firefighting Duty	18-50
Safety Precautions	18-51
Operations	18-53
Action	18-54
Section H: Extinguishing Fires.....	18-57
Safety Rules.....	18-58
Fire Combat.....	18-59
Firefighting Procedures on Coast Guard Boats.....	18-60
Firefighting Procedures on Auxiliary Boats	18-63
Fires Aboard Other Boats	18-65
Fire Under Control.....	18-66
Fire Extinguished.....	18-67
Abandoning a Boat	18-68
Section I: Dewatering.....	18-69
Action Before Dewatering	18-70
Dewatering with an Eductor.....	18-71
Dewatering Using a Drop Pump.....	18-73

Section J: Righting Powerboats and Sailboats	18-81
Righting Powerboats.....	18-82
Righting Small Sailboats	18-89
Righting Large Sailboats	18-90
Section K: Flood Control.....	18-91
Plugging Holes.....	18-92
Patching Holes.....	18-94
Patching Cracks	18-97

Chapter 19: Air Operations

Addendum A: Heavy Weather Addendum

Section A: Heavy Weather Wave and Surf Characteristics	A-3
Waves in Heavy Weather	A-4
Observing and Measuring Waves	A-5
Surf Zone	A-7
Section B: Heavy Weather Boat Handling.....	A-9
Motions	A-10
Control of Effects	A-12
Experience	A-14
Boat Handling.....	A-15

Section C: Heavy Weather Piloting	A-17
Preparation	A-18
Equipment Condition	A-21
Specific Techniques	A-23
Heavy Weather Person in the Water Recovery	A-25
Man Overboard.....	A-26
Recovery of a PIW.....	A-29
Use of a Surface Swimmer.....	A-30
Multiple PIWs.....	A-31
Surf Operations	A-33
Risk Management and Safety Conditions.....	A-34
Forces Affecting Boat Handling in Surf.....	A-36
Basic Surf Operations	A-40
